Services ordered			
Service	Price R\$	Unit	Price US\$
Point for Internet broadband (shared access 02Mbps)	770,00		155,00
Point for Internet broadband (shared access 04Mbps)	1.190,00		240,00
Link Internet Dedicated full time 02 Mbps (Public IP)	3.310,00		670,00
Link Internet Dedicated full time 04 Mbps (Public IP)	5.280,00		1.060,00
Link Internet Dedicated (Public IP) over 04 Mbps	Under Consult		
Wifi Router	255,00		50,00
Total payable			

- Cancellation of contracted services will only be accepted if the deadline of 6 (six) days before the requested period.
- *PTAX, 31/01/2024 – 1US\$ = 4,96R\$ (<https://www.bcb.gov.br/estabilidadefinanceira/historicocotacoes>)

INTERNET SERVICES:

- DEDICATED LINK

- 1) Access to Internet is dedicated to Link, with its guaranteed rate, as employed for download and / or upload, it will be available through Category 5 cabling with RJ45 connector male international standard 568A.
- 2) The IP address that is provided on the day of the event will be fixed (public IP).
- 3) Figures do not include equipment Routers and Switches.

- SHARED LINK

- 1) Access to broadband Internet, with its speed limited, with guarantee of download and / 40% upload, it will be available through Category 5 cable with connector RJ 45 male international standard 568A.
- 2) The IP address that is provided on the day of the event will be fixed / invalid.

ROUTERS OF USE AND OTHER EQUIPMENT IN LOCAL NETWORK (LAN) EXHIBITOR:

We caution that the use of these proprietary equipment may adversely affect the link performance contract within the exhibitor's environment. These devices inserted in the local network (LAN) the exhibitor may incur speed interruptions and variations of internet link contracted without any liability of the CONTRACTOR.

WIFI ALERT:

We emphasize that in the frequency of 5.0 Ghz the system has greater availability of channels and better performance.

On equipment equipped with 2.4 Ghz frequency, channel availability is lower, lower performance and greater vulnerability to interference from other systems / equipment that use the same frequency (eg, microphones, used wireless headphones in plenary and others) making access and navigability tend to zero We reinforce our suggestion to use only equipment (smartphone routers, notebooks, computers, etc.), able to connect to the 5.0Ghz network.

Suggest the use of DUAL BAND routers. We remind you that we do not rent and do not sell WIFI routers.

We emphasize that the performance of the WIFI network is also tied to the capacity of the router. In view of the multiple choices available in the market, we recommend the use of "professional" routers that differentiate themselves by offering better coverage and greater connection of users.

For the need of high-performance services, susceptible to variation in speed, performance, interference and etc., we suggest that if you use the wired connection to the internal network (LAN) and also to the internet access.

To avoid bottlenecks in the internet bandwidth, we recommend that you size the network taking into account the number of users, bandwidth, applications, bandwidth limits per access, etc.

We emphasize that the customer is responsible for the installation / provision of wired and WIFI internal networks (LAN), network equipment (router, switches, antennas etc.) as well as all network configurations.

Use of Internet for high performance services, we suggest the installation / availability of the internet through wired network.

Form of Payment

- All services will be added the value of U\$ 130.00 (bank charges) plus IOF
- Services: Requested in advance of at least 20 (twenty) days of the beginning of the event.
- For of payment bank transfer or in cash on first day of the event.
- Bank Bradesco Agency 0133-3 C.C:739-0, HTH Locação e Consutoria Ltda.
- Swift code: BBDEBRSPPO for payment bank transfer.
- IBAN Code: BR16 6074 6948 0013 3000 0007 390C 1 for payment bank transfer.
- **IMPORTANT:** Send proof to at the request of services.
